- Therapeutic Area Core Competency Training (TACCT™)

## TACCT

### THERAPEUTIC AREA CORE COMPETENCY TRAINING

Rapid advances in medicine and the increasing complexities of clinical trials require clinical research professionals to know more than ever. As a certified continuing education provider, **STUDY HALL INC.** has developed training modules for specific therapeutic areas.

For example, topics covered in our Oncology Lung Module include:

- Disease Overview
- Anatomy
- Pathology
- Diagnostic Work-up
- Disease Staging
- Treatment Plan
- Common Study Objectives
- Tumor Assessments
- Tumor Response Criteria
- Adverse Events

TACCT™ is one of the many benefits **STUDY HALL INC.** provides in order to recruit, retain and source professionals who are committed to quality clinical research.

### Professionalism – A Key Success Factor

The Thomson CenterWatch 2005 survey of 612 investigative sites found that more than 80 percent consider the professionalism of CRAs to be a critical success factor. The survey ranked sponsors on multiple dimensions strongly influenced by the quality of CRAs:

- Maintains open communication
- Is responsive to inquiries
- Is organized and prepared
- Has a collaborative workstyle
